**Triple A Van Lines Limited, 19283**  
1101 Brydges Street,  
London, Ontario.

NOTICE OF MOTION

TAKE NOTICE that a re-opening of the Board's decision dated November 8, 1974, which decision arises out of a review heard by The Ontario Highway Transport Board on July 11, 1974, will be considered.

The grounds upon which our motion is based are as follows:

1. That the presiding panel failed to make a proper assessment of the historical development of the operating authority of Triple A Van Lines Limited in determining the scope of such operating authority in relation to the City of London.
2. That the presiding panel failed to give proper consideration to the exhibits filed and the

testimony given in the proceedings, insofar as those exhibits and the testimony demonstrated a continuous effort of Triple A Van Lines Limited to maintain a place of business at the City of London.

3. That the decision of the Board is not consistent with the evidence presented at the hearing of the review and, inasmuch as it deprives the reviewee of an existing and previously acknowledged privilege, is contrary to the principles of natural justice and equity.
4. That the decision of the Board is inconsistent with the purpose and intent of the restriction placed in the reviewee's operating authority with respect to the maintenance of places of business at given points in the Province of Ontario.
5. Upon such other grounds as may seem just and this Honorable Board may permit.

The Board has fixed Friday, the 28th day of February, 1975, at its Chambers, 10th Floor, 151 Bloor Street West, Britannica House, Toronto, Ontario, at 10 a.m. (E.S.T.), for this purpose.

## Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

.....

It is an offence under *The Securities Act* to file a false or misleading report.

Instructions:

1. File two signed copies of the report with the Ontario Securities Commission, as and when provided by subsection 3 of section 110 of the Act.

2. File a separate report with respect to each corporation of which you are an insider.
3. Indicate in what capacity you qualify as an insider, for example, "director", "senior officer", "beneficial owner of such number of shares as carry more than 10 per cent of the votes attached to all equity shares of the corporation". If you qualify in more than one capacity, so state. In connection with the meaning of the word "insider", see subsections 2 to 7 of section 1 and section 109 of the Act.

4. State all changes in your beneficial ownership of, or control or direction over, capital securities of the corporation during the calendar month for which you are reporting and also your beneficial ownership of or control or direction over capital securities as of the end of the month. Report every transaction involving a change in your beneficial ownership of, or change in control or direction over, capital securities during the month even though purchases and sales or other changes during the month are equal or the change involves only the nature of ownership, for example, from direct to indirect ownership.
5. Under "Designation of Security", identify each class of capital security beneficially owned, or over which control or direction is exercised, for example, "Common shares", "First preference shares", "5% Debentures due 1975", etc.
6. Show the date (day, month and year) of each security transaction opposite the amount or number of securities involved in the transaction and the price per unit or share at which the capital securities were sold or purchased.
7. In reporting the amount or number of capital securities acquired, beneficially owned or over which control or direction may be exercised, in the case of debt securities give the principal amount thereof and in the case of shares give the numbers thereof.
8. Under "Nature of Ownership" state whether and to what extent your beneficial ownership of capital securities is direct or indirect. To the extent your ownership is indirect indicate in a footnote or some other appropriate manner the name or identity of the medium through which such capital securities are indirectly owned and state the amount and number so owned by each such medium. Report capital securities owned indirectly on separate lines from capital securities owned directly. State also whether you may exercise control or direction over capital securities and report the amount or number on a separate line. To the extent that you exercise control or direction over capital securities indicate the means by which such control or direction may be exercised and state the amount or number of the capital securities.
9. If you acquired from or sold to the corporation of which you are an insider any of its capital securities so state. If the acquisition of securities was through the exercise of an option, so state and give the price per share or unit paid. If any purchase

or sale was effected otherwise than in the open market, so state giving particulars. If the transaction was not a purchase or sale, indicate its character, for example "gift", "stock dividend", etc., as the case may be. (This information may be set out in item 8 of this Form).

10. You may include any additional information or explanation that you deem relevant.
11. If the report is filed on behalf of a company, partnership, trust or other entity, the name of the company or other entity shall appear in printed form and the name and office of the signee shall be in printed form immediately following the signature and there shall be filed with the Commission a certified copy of the resolution or by-law authorizing such person or persons to file and the resolution or by-law shall show all directors and officers present when the resolution or by-law was authorized. If the report is filed by an individual it shall be signed by him; if signed on his behalf by an agent, there shall be filed with the Commission a duly completed power of attorney.
12. If space provided in any item is insufficient, additional sheets may be used and must be cross-referred to the item and properly identified and signed.

The following suggestions may be of some assistance to those reporting insider transactions:

- (a) The Commission staff are not permitted to correct, delete or add to a report. Therefore, ALL paragraphs should be completed.
- (b) One should make certain that the amounts are consistent with the information given in previous reports.
- (c) Two signed copies are required to be filed.
- (d) The Commission staff would prefer that ALL reports filed are either printed or typewritten.
- (e) Where a report is intended to show directly held securities being disposed of in such a manner that the position becomes "indirect", or vice versa, it is essential that both sides of the transaction are reported, e.g., if Mr. Jones wishes to transfer 100 directly owned shares in Company "A" to a wholly owned subsidiary named Company "B", as an indirect holding, it should be shown both as a sale by Mr. Jones and as a purchase by Company "B" under Item 6. We suggest that Item 8 be utilized to draw attention to these circumstances.

- (f) Paragraph 7 should always be completed; it will show a consolidation of ALL the securities held.
- (g) Reporters are reminded that "stock splits" constitute a change in their holdings and new acquisitions should be reported "in numbers of shares".
- (h) Where attachments are used to record detailed transactions these should be totalled and the totals carried forward to paragraph 6 on the Form 15.
- (i) When reporting indirect holdings always refer to the companies involved by full name; one should not use such identification as Company "A", etc.
- (j) Reporters are reminded that Purchase Warrants, Put, Call or other transferable options are considered equity securities of a corporation and must be reported. O. Reg. 14/75, s. 2.

#### NOTICE OF MOTION

TAKE NOTICE that pursuant to Section 17 of *The Ontario Highway Transport Board Act*, Frederick Transport Limited will move the Ontario Highway Transport Board for an Order directing:

- (a) a review of its Certificate dated November 26th, 1974, or in the alternative;
- (b) a re-hearing either in whole or in part of the application of Frederick Transport Limited resulting in the aforesaid Certificate, and/or in the alternative;
- (c) permission to introduce new evidence to clarify certain specific issues raised in the aforesaid Reasons for Decision,

on the following grounds:

- (a) The Sitting Panel in its Reasons for Decision erred as to the intention of the Applicant with respect to proposed applications for complementary authority before the Interstate Commerce Commission.
- (b) In view of this basic error certain subsequent conclusions resulting from the evidence and leading to the Board's Certificate are in error.
- (c) The Sitting Panel's conclusions with respect to the "theory of the incidence of possibility" are contrary to the evidence and do not take into account the distinction between long distance irregular route common carrier operations and regular route common carrier operations.
- (d) The Sitting Panel in its Reasons for Decision erred in relating the numbers of witnesses and the geographical location of witnesses to the question of proof of necessity and convenience.
- (e) The Reasons for Decision issued by the Sitting Panel contained inherent inconsistencies with respect to the Applicant's proposed intentions before the Interstate Commerce Commission in view of the fact that a certificate of necessity and convenience has been issued with respect to not less than four named shippers each of whom would be dealing with commercial zone activities at Detroit and/or Buffalo.
- (f) The Certificates issued by the Sitting Panel for six named shippers is inconsistent with the common carrier nature of the Applicant's activities and with the general pattern of decisions by the Ontario Highway Transport Board in dealing with applications by common carriers for common carrier authority.
- (g) The Sitting Panel did not give sufficient weight to the demands of the shipping public for through service on truck-load traffic.

(h) And in support of such Notice of Motion will be read the Reasons for Decision as issued by the Ontario Highway Transport Board dated November 26th, 1974 and will be heard argument by counsel on behalf of Frederick Transport Limited.

To these Acts the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:

"In Her Majesty's name, the Honourable the Lieutenant Governor doth assent to these Bills."

Mr. Speaker then said:—

"May it please Your Honour:

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal year ending the 31st day of March, 1975."

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

*Mr. Speaker and Members of The Legislative Assembly of Ontario:*

Before bringing this Fourth Session of the Twenty-ninth Parliament of Ontario to an end, it is my pleasure to present a review of some of the achievements of this Assembly in the past year.

As Honourable Members are aware, the major concern in 1974, for Ontario as elsewhere, was continuing inflation. Consumer prices last year rose by an average of 10.5 per cent. Yet, Canada and Ontario again experienced lower inflation rates than those evident in other industrialized countries.

Ontario's unemployment rate averaged approximately 4.1 per cent, slightly above the 1973 level. However, favourable circumstances have prevailed, as a result of which the Province was generally able to provide employment for persons entering the steadily increasing labour force, and about 152,000 new jobs were created during the year.

At the same time, to help control the growth rate of Provincial expenditures, my Government announced its intention of holding the number of positions in the Ontario Civil Service throughout 1975 to the April 1st, 1974 level. This step is taken in the belief that the existing approved complement of 71,705 employees, excluding members of the Ontario Provincial Police, will allow sufficient flexibility within the operations of Government while ensuring that the level of service to the people of Ontario will not be adversely affected.

Several initiatives announced in the Budget last spring were directed toward offsetting the impact of rising costs on Ontario's citizens, and especially so for persons on fixed incomes.

As initially introduced on July 1st, Ontario's Guaranteed Annual Income System for the elderly, disabled and blind, known as GAINS, established a program of monthly payments to eligible persons to ensure a minimum annual income of \$2,600 for single people and \$5,200 for couples. A subsequent increase in Federal Old Age Security and Pension Support, in response to higher living costs, was supplemented by the Ontario Government which raised the GAINS minimum income to \$2,700 and \$5,400 respectively, on October 1st.

In a further increase effective January 1st, 1975, the GAINS guarantees moved to \$2,766 for single people and \$5,532 per couple. This second increase brings an additional 2,000 people into the program and raises the total payments by the Province to \$84.5 million in the current fiscal year.

A new Drug Benefit plan was introduced on September 1st, extending further the benefits of the Province's health system to allow over half a million residents to receive prescribed drugs without charge. All persons who receive the federal Guaranteed Income Supplement, or Ontario GAINS or Family Benefits support are automatically eligible under the plan.

Universally applied benefits announced in the 1974 Budget include retail sales tax exemptions covering a wide range of consumer products, and amounting to an estimated reduction in potential revenues of \$43 million. Further enriched Ontario tax credits, including the property tax credit, estimated to cost \$70 million, were supplemented by an additional grant of \$124 million to Municipal Governments to keep local property tax increases to a minimum.

Monthly workmen's compensation payments were increased to \$260 effective July 1st, and the earnings ceiling raised to \$12,000 per year.

A higher general minimum wage rate of \$2.25 an hour came into effect on October 1st, with a minimum for construction industry employees of \$2.50 an hour. A further increase is scheduled for May 1st, 1975.

As part of a resolve to meet the need for housing for the growing population in this Province, my Government has sought and encouraged greater involvement by the private sector in a broad range of programs. Announcement, last fall, of the first agreements with 11 developers for a potential total of 12,400 housing units to 1976 under the Housing Action Program, is one illustration of the progress being made. Some 30 additional developer agreements are being negotiated.

One-third of the 3,000 units scheduled to start in several municipalities by the end of 1974 are within the income range of the Provincial Home Ownership Made Easy Program, as are a further 636 units which will be started by the end of March. By a provision of the Budget last spring, the

Province will make unconditional grants to area municipalities to ensure that local taxes will not be increased to service new developments of this kind.

Further, my Government has taken steps to help stem the rapid climb in prices on the housing market which has taken place alongside a somewhat slower rate of increase in the supply of land. A new tax levied on land speculators has been aimed directly at discouraging speculation activities and a realization of windfall profits by anyone in Ontario, while providing specified exemptions with respect to personal residences and recreational property, tourist establishments, commercial and industrial property, and farm and Crown lands.

At the same time, a Land Transfer Tax has been introduced, designed to discourage non-residents from purchasing and holding land, but allowing for exemptions in cases where the purchase is considered to be of significant economic benefit to Ontario.

Plans to improve essential services for people in remote areas of Ontario are progressing. An air communications network for Northwestern Ontario is scheduled for full service in 1977 with NorOntair links between 12 isolated communities and national and regional air services at Dryden, Thunder Bay and Sault Ste. Marie. My Government's authorization to the Ontario Northland Transportation Commission to implement NorOntair Northwest follows the success of a comparable demonstration program in Northeastern Ontario over the past three years.

On May 31st, 1974, a second subsidiary compact to the 10-year General Development Agreement with the Government of Canada was signed for Northwestern Ontario. Honourable Members will recall that a first subsidiary agreement was reached in February for several development projects in the Cornwall area. The Northwestern Ontario agreement is for seven specific projects including sewage and road construction and town-site infrastructure assistance at a cost of \$42 million over a three-year period.

Subsequently, my Government also announced plans to increase the Province's regional priority budget for Northwestern Ontario to meet needs beyond those served by regular Ministry programs. Funds have been increased from \$2.4 million in 1973-74 to \$9.3 million for 28 projects in the current fiscal year. This assistance, while continuing to place emphasis on building a sound economic base in various parts of the region, has widened the scope of the program to include social and cultural initiatives, as well as a new project to train native people in policing and probationary services.

The special program to obtain health practitioners for remote or underserved areas of the province placed its 200th physician last summer, and 60 dentists have so far been recruited.

In December, a new rotation scheme was launched, under a one-year agreement with the Ontario

College of Family Physicians, to serve communities that are unable to attract permanent resident physicians. More than 80 doctors have indicated their willingness to take part in the program in rotation periods of a minimum of two weeks each. The experience at Armstrong, the first locality to receive this novel service, will provide a base for evaluation and possible expansion of the program to other remote northern communities.

A unique new course was offered during the 1974 summer to train native indian people as school teachers. Since then, most of the 96 successful candidates have been teaching or otherwise assisting in the education of native students. The project is the result of close co-operation between native peoples' organizations, the Government of Canada and the Ontario Ministry of Education. The second phase of the training program will be given next summer.

A plan has been developed to promote the use of Ontario's 5,000 elementary and secondary schools as focal centres of the communities they serve. The Province's school boards are being offered administrative and financial support for community school projects. In addition, my Government has strongly endorsed full community use of school facilities after regular school hours by groups and agencies working in concert with their local boards of education.

Education ceilings announced for 1975 will allow a 13 per cent increase in school board expenditures, amounting to an additional \$350 million over the current year. An added new form of assistance provides a Provincial allowance of \$80 per elementary pupil to enrich the programs offered at this fundamental stage of the educational experience.

At the post-secondary level, Provincial support to colleges and universities will be increased from \$659 million in the current year to \$768 million for the next academic year, an average increase of 16 per cent.

A new advisory council on Franco-Ontarian affairs has been established to assist the Government in matters affecting French-speaking university and college students, including manpower training and cultural affairs.

Cultural and recreational activities play an important part in sustaining the well-being of all our citizens and the life of the community. In support of this belief, my Government recently created a new Ministry of Culture and Recreation, which will give greater recognition to the multi-cultural nature of our society. It will be the task of the new Ministry to ensure the preservation and enhancement of Ontario's cultural heritage and to stimulate creative excellence on the part of individuals, as well as for the benefit of the community as a whole.

A new Consumer Reporting Act proclaimed on July 2nd protects consumers in credit and personal

information reporting, granting them the right to know what is reported and to whom. The law also makes provision for correction of false information.

Complementary legislation in the form of a Business Practices Act establishes sanctions against a range of undesirable practices that may occur in consumer sales.

Maintaining a secure and adequate supply of electrical power is of crucial importance to industrial as well as home consumers across Ontario. My Government has given approval to several power development projects by Ontario Hydro for 1977 to 1982. They include construction of a new generating station at Wesleyville, expansion of the Pickering generation station, and construction of two additional heavy water plants in the Bruce nuclear power project.

Following an extensive and successful public consultation process, the route of a 500 kilovolt transmission line from Nanticoke to Pickering has been determined, and the Government has given approval for its construction at an estimated cost of \$360 million.

Significant advances have been made toward overcoming the problems posed by growing volumes of solid waste and for recovering useful materials presently lost in landfill operations.

Last spring, my Government announced plans to proceed in a joint undertaking with the Municipality of Metropolitan Toronto in what is known as the "Watts from Waste" project. The goal of this experiment, to be carried out at the Lakeview generating station, is to use processed solid waste as fuel in the production of electrical power.

In the fall, my Government took the initiative in launching a comprehensive province-wide program to reclaim and recycle useful resources from solid waste, with the ultimate aim of replacing garbage disposal with a reclamation system serving 90 per cent of the population. Initially, six reclamation and recycling plants are to be built at a cost of \$17 million for the Kingston, Sudbury, London, Metropolitan Toronto and Halton-Peel areas.

Growing world-wide concerns about ensuring adequate production and efficient distribution of food make it incumbent on governments to encourage the preservation and use of arable lands for agricultural production. To this end, a new Food Land Development Branch has been created in the Ministry of Agriculture and Food. Among its responsibilities, the Branch will help develop programs to maintain and encourage food production, in the interim, on Government-owned lands which are suitable for the purpose, although intended for other uses in the future.

In the spring, extensive damage was caused in Kitchener, Cambridge, Brantford, Paris and neighbouring communities when the Grand River

overflowed its banks. The work of the local Disaster Relief Committee in the areas affected was carried out with tremendous will and spirit. Relief made available by the Province offered up to \$4 in financial assistance for every \$1 of locally raised funds, a more generous measure than in similar previous disasters, as serious losses were experienced by property owners unable to secure flood insurance.

Ontario was host to the 15th annual Premiers Conference in September, at which Canada's Provincial leaders reaffirmed a commitment to continued interprovincial co-operation in the development of economic policies. The emphasis is on the formulation of effective measures over the shorter term, while maintaining a broad perspective of sound long-term planning.

Overall, Ontario's economy experienced a real growth of almost four per cent in 1974. While lower than the near-record rate of approximately seven per cent achieved in 1973, this means that the Province was nevertheless able to maintain the momentum of economic growth at a very satisfactory level.

At the close of what has been, as evidenced in this review, an active and productive Session of this Assembly, may I, on behalf of the people of Ontario, commend its Members on their many accomplishments.

And now, I declare the Session prorogued.

In our Sovereign's name, I thank you.

God bless the Queen and Canada.

The House Leader then said:—

*"Mr. Speaker and Members of the Legislative Assembly:*

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued."

RODERICK LEWIS, Q.C.,  
Clerk of the Legislative Assembly  
of Ontario.

- The property tax credit must be claimed by the spouse having the higher taxable income.
- Only the property tax or rent paid in respect of your *principal residence* may be included in determining occupancy cost. Property tax or rent paid in respect of a second residence or cottage may not be included in occupancy cost.

### Sales Tax Credit

- The Ontario Sales Tax Credit may be claimed by all individuals resident in Ontario on 31st December, 1974, *except*
  - (a) persons under age 16 at the end of 1974, and
  - (b) persons claimed as a dependant for income tax purposes by any other person resident in Ontario.

### Pensioner Tax Credit

- The Ontario Pensioner Tax Credit may be claimed by all individuals resident in Ontario on 31st December, 1974, who are age 65 or over at the end of 1974, *except* for a married couple both of whom are age 65 or over at the end of that year living in the same principal residence; in which case only the spouse with the higher taxable income is entitled to claim this credit.
- Where both spouses are 65 or over and neither spouse has a taxable income, the Pensioner Tax Credit must be claimed by the same spouse who is claiming the Property Tax Credit, except when no Property Tax Credit is being claimed; in which case either spouse, but not both of them, may claim the Pensioner Tax Credit.
- Where only one spouse is 65 years of age or over, that spouse may claim the credit.

### Principal Residence

Principal residence includes a temporary residence such as a hotel room which was occupied continuously by the individual for all or part of the year, and also includes a mobile housing unit such as a trailer which was used as the principal residence of the individual.

For persons who move, the principal residence includes all housing units (or addresses in Ontario) occupied or inhabited by the person during the taxation year.

### Occupancy Cost

'Occupancy cost' means

# RÉGIME DE CRÉDITS D'IMPÔT DE L'ONTARIO

## Règles et indications générales

### Crédit d'impôt foncier

- Le crédit d'impôt foncier de l'Ontario peut être demandé par tous les particuliers qui étaient résidents de l'Ontario le 31 décembre 1974, *sauf*
  - les personnes âgées de moins de 16 ans à la fin de 1974, et
  - les personnes âgées de moins de 21 ans à la fin de 1974 qui habitent à la maison et sont comptées comme personnes à charge.
- Le crédit d'impôt foncier doit être demandé par le conjoint ayant le revenu imposable le plus élevé.
- Pour déterminer le coût d'habitation, vous ne devez compter que l'impôt foncier ou le loyer de votre *résidence principale*. Vous ne pouvez faire entrer dans le coût d'habitation l'impôt foncier ni le loyer d'une deuxième résidence ou d'un chalet.

### Crédit de taxe de vente

- Toute personne résidant en Ontario le 31 décembre 1974 peut demander le crédit de taxe de vente de l'Ontario, *sauf*
  - les personnes âgées de moins de 16 ans à la fin de 1974, et
  - les personnes comptées comme personnes à charge aux fins de l'impôt sur le revenu par tout autre résident de l'Ontario.

### Crédit d'impôt aux pensionnés

- Toute personne qui était âgée de 65 ans ou plus à la fin de 1974 et qui résidait en Ontario le 31 décembre 1974 peut demander le crédit d'impôt aux pensionnés de l'Ontario, *sauf* que, dans le cas où le mari et la femme étaient âgés tous deux de 65 ans ou plus à la fin de ladite année et habitaient la même résidence principale, seul le conjoint ayant le revenu imposable le plus élevé peut demander ce crédit.
- Lorsque les deux conjoints sont âgés de 65 ans ou plus et qu'aucun n'a un revenu imposable, le crédit d'impôt aux pensionnés doit être demandé par le conjoint qui demande le crédit d'impôt foncier, mais si aucun n'a demandé le crédit d'impôt foncier, le crédit d'impôt aux pensionnés peut être demandé par l'un ou par l'autre, mais non par les deux.
- Lorsqu'un seul des conjoints est âgé de 65 ans ou plus, c'est ce conjoint qui peut demander le crédit.

### Résidence principale

La «résidence principale» désigne le logement que l'on a habituellement occupé ou habité pendant l'année d'imposition. Elle comprend une résidence temporaire, par exemple une chambre d'hôtel que le particulier a occupée de façon continue pendant la totalité ou une partie de l'année, et comprend également un logement mobile, comme une roulotte, lui ayant servi de résidence principale. Dans le cas d'une personne qui déménage, la résidence principale comprend tous les logements (ou les adresses en Ontario) qu'elle a occupés ou habités pendant l'année d'imposition.

On doit faire un calcul proportionnel du montant annuel des impôts fonciers ou du loyer afin de ne compter que la période pendant laquelle un logement a servi de résidence principale.

### Coût d'habitation

Par «coût d'habitation», il faut entendre

- la totalité de l'impôt foncier versé à l'égard de la résidence principale pour l'année d'imposition, ou
- 20% du loyer total (à l'exclusion de tout montant payé pour les repas ou la pension) versé à l'égard de la résidence principale pour l'année d'imposition.

### Conjoint ayant le revenu imposable le plus élevé

Lorsque les conjoints habitent la même résidence principale, le crédit d'impôt foncier et (ou) le crédit d'impôt aux pensionnés de l'Ontario doivent être demandés par le conjoint ayant le revenu imposable le plus élevé, quel que soit celui qui détient le titre de propriété de la résidence principale.

## Cas particuliers

### Personnes qui poursuivent des études de niveau post-secondaire

Lorsque la résidence principale d'un particulier qui poursuit à plein temps des études de niveau post-secondaire se trouve dans un logement (prescrit par les Règlements) tenu par une université ou un collège de l'Ontario, le coût d'habitation à l'égard de cette résidence est limité à \$25.

### Autres particuliers

Les particuliers suivants sont aussi admis à demander le crédit d'impôt foncier de l'Ontario:

- les usufruitiers viagers, et
- les particuliers qui sont décédés au cours de l'année et au nom desquels on produit une déclaration d'impôt sur le revenu.

### Diplomates et militaires étrangers

Les diplomates, les représentants de gouvernements étrangers et les militaires étrangers non tenus de produire une déclaration canadienne d'impôt sur le revenu n'ont pas droit aux crédits d'impôt de l'Ontario.

*N.B. Les crédits d'impôt de l'Ontario pour 1974 sont administrés dans le cadre du régime d'impôt sur le revenu.*

*Après le calcul des crédits auxquels vous avez droit, reportez-en le montant à la ligne 63 en page 1 de votre déclaration d'impôt sur le revenu.*

## GENERAL ASSESSMENT

Section 178.22 (3) (b) requires me to set forth a general assessment of the importance of interception of private communications for the investigation, detection, prevention and prosecution of offences in Canada. Since Part IV.1 has been in effect only since July 1, 1974, and all cases involving authorized interceptions that led to arrests are still pending in various courts, it is not possible to accurately assess these matters at this time.

## NOTICE OF MOTION

TAKE NOTICE that the Ontario Highway Transport Board will be moved, pursuant to Section 17 of *The Ontario Highway Transport Board Act*, for an Order to rehear, or, alternatively, reargue, the application of N. AND TAKE NOTICE that in support of such Motion will be read the Reasons for Decision of the Honourable Board dated November 14, 1974.

AND TAKE FURTHER NOTICE that in support of such Motion will be heard counsel for the Respondents as to the following:

- (i) That the presiding panel of the Ontario Highway Transport Board erred in the weight it attached to the evidence submitted in support of the application;
- (ii) That the presiding panel failed to attach significant weight to the testimony of the Respondents as it pertained to the alleged complaints of the shippers and the service being provided by the Respondents;
- (iii) That undue weight was attached by the presiding panel to the "same day service" concept bearing in mind the actual need for the same and the applicant's proposed method of providing such service;
- (iv) That a number of shipper witnesses, while expressing an alleged need for Saturday service, have voluntarily and publicly stated since testifying that their Saturday service is no longer available to the public. Consequently, it is submitted that the presiding panel was misled insofar as it considered the requirement of a Saturday service as justification for the granting of the application;
- (v) That the presiding panel did not consider the effect that the granting of this application would have upon the service being provided to the public by these Respondents; and
- (vi) Such further and other arguments as counsel may present,

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario at its next session, for Special Legislation to provide:

1. That the City may enter into agreements with any person or governmental authority on such terms and conditions as may be agreed upon for the making of grants to the owner of any building on Yonge Street in the City to pay for the whole or any part of a program designed to restore or preserve any such building and further that the City may participate in such program in any manner prescribed by the Council.

2. That membership of the Toronto Electric Commissioners shall be increased from three to five, one of whom shall be ex officio the Mayor of the City, one of whom shall be appointed by Ontario Hydro and three of whom shall be appointed by the council of the City. Provision is made that members of the Toronto Electric Commissioners shall hold office for two years and until their successors are appointed but any member appointed before the legislation comes into effect shall continue to hold office until his term expires and his successor is appointed. Provision is also made for the filing of vacancies. Members, other than the Mayor and the Chairman shall receive annual salaries not exceeding \$8,000.

3. That any notice of appeal to the housing standards appeal committee, pursuant to *The City of Toronto Act, 1936*, as amended, or the non-residential standards appeal committee, pursuant to *The City of Toronto Act, 1971*, as amended, shall set forth the grounds of appeal and no other grounds may be argued except by leave.

4. That *The City of Toronto Act, 1936*, as amended, be further amended so that if upon inspection, the

inspector is satisfied that any dwelling violates the standards prescribed in the City's housing by-law in such a manner that it is hazardous to the health and safety of any person, the inspector may make an order and thereafter the City, through the inspector, may take whatever measures the inspector deems necessary to correct the violation, without notice to any person, and for such purposes, the City and anyone acting on its behalf will have the right to enter the dwelling and adjoining property and neither the City nor anyone acting on its behalf shall be liable, except as in the legislation provided by reason of anything done by or on behalf of the City to correct the hazard or because of anything done without notice to such persons. The proposed amendment will provide for the service of the order immediately after the hazard has been corrected and will set out what such order must contain. It will be further provided that after the order has been served on those persons required by the legislation to be served, the inspector must apply to the housing standards appeal committee and that committee can either confirm or refuse to confirm the order. There will be a provision in the proposed amendment whereby either the City or the owner may appeal a decision of that committee to a judge of the County Court, and the procedure for such appeal will be set out. The proposed legislation will also provide that if the Committee confirms such an order and no appeal is made to the judge, or if the judge confirms such an order, the City will have a lien for the amount expended by it or on its behalf, and the amount thereof may be collected in the same manner as real property taxes but if the committee refuses to confirm such an order and no appeal is made to the judge, or if the judge refuses to confirm such an order, the City shall bear the amount expended by it or on its behalf to correct the hazard.

5. That the City may pass by-laws licensing, regulating and governing any class or classes of rooming houses or any class or classes of owners or operators of rooming houses within the City or any defined area or areas thereof, and for designating as a rooming house, any class or classes of dwelling as defined in the proposed legislation, and further for defining in any such by-law "owner" or "operator". The proposed legislation would enable the City to pass by-laws providing for the issuing, suspension, revocation, renewal and transfer of such licences on such terms and conditions as council may from time to time prescribe and for prohibiting the use of a rooming house in violation of any by-law of the City or for any purpose other than that for which such licence was issued. It is further provided in the proposed legislation that the City may pass by-laws prohibiting the granting of a licence to an applicant who is not of good character and for providing the means of ascertaining whether the applicant is of good character. The proposed legislation further provides for the enactment of by-laws authorizing the Licensing Commissioner, as defined, to exercise all of the powers of the council with respect to licensing, suspension, revocation, renewal or transfer of a

licence. The council or the Licensing Commissioner as the case may be would, if the proposed legislation is enacted, be able to impose conditions upon the applicant or holder of a licence, prior to the issuing, suspension, revocation, renewal or transfer of a licence. It is also provided that a licence fee may be fixed by by-law for any class or classes of rooming houses or owners or operators thereof in accordance with a scale for each class or the number of roomers permitted in a rooming house or for the number available for occupancy therein. A penalty of not more than \$1,000 is proposed for breach of any such by-law.

6. That where pursuant to a by-law passed under *The City of Toronto Act, 1936*, as amended, rent has been deposited with the City Treasurer, such by-law may empower the City to collect an administration fee not to exceed ten per cent thereof.

Dated at Toronto this 25th day of February, 1975.

(d) a processing plant that crushes, grinds, screens, mills, calcines, dries or otherwise processes any non-metallic mineral from a mine, is a concentrator. O. Reg. 126/75, s. 2.

3.—(1) For the purpose of disaggregation under subsection 2a of section 3 of the Act, an open pit mine or an underground mine may be deemed to be a mine brought into active operation for the first time after the 9th day of April, 1974 in any of the following instances:

i. A mine project involving an investment at an existing mining operation that is designed to increase the rate of ore production from the mining operation by at least 30 per cent over the previous annual output high since 1968 for each expanded mine.

ii. A mine project involving an investment of at least 25 per cent of the cost of the depreciable mining assets of the mine immediately before the commencement of the mine project.

iii. A mine inactive on the 9th day of April, 1974 that is reopened, or that, if closed down after that date, remains closed down for a continuous period of five years before reopening.

iv. Any other major mining investment that, in the opinion of the Lieutenant Governor in Council, warrants disaggregation.

(2) The date of commencement of the active operation and production of mineral substances from a working or excavation of the ground for the taking or extracting of mineral substances brought into active operation and production for the first time after the 9th day of April, 1974 shall be determined by the mine assessor.

(3) Upon receipt of satisfactory information in the form of a statutory declaration by the operator, the mine assessor shall make an advance ruling on qualification for disaggregation. O. Reg. 126/75, s. 3.

4.—(1) In appraising the value of mineral substances at the pit's mouth under clause c of subsection 3 of section 3 of the Act, the mine

assessor shall determine the total amount of gross receipts from the output of the mine for the taxation year and deduct therefrom,

- (a) except as allowed under subsection 2, the cost of transportation of the mineral product from the mine to the geographical point of transfer of title to the product to the customer and of packaging and marketing the product to the extent that such transportation, packaging or marketing costs have been paid or borne by the operator;
- (b) the cost of processing in Canada the output of the mine to the grade, sizing and form in which the product was sold or for which the market value of the product is determined under subsection 2, provided that such expenditures have not at any time in a previous taxation year been allowed as an expense or deduction under the Act or this Regulation;
- (c) the office, administrative and general expenses of the operator attributable to the processing in Canada of the ore or mineral output;
- (d) the expenses incurred in respect of scientific research conducted in Canada and related to processing in Ontario of the ore or mineral output;
- (e) an allowance for depreciation in each taxation year, on a straight line basis, of not less than 5 per cent and not more than 15 per cent of the original capital cost as constructed of the processing assets and assets for transportation of the finished product to market from the point at which processing is completed situate in Canada until the full cost thereof has been written off, computed at the close of the taxation year; and
- (f) a processing allowance calculated in accordance with section 5,

and the difference is the appraised value of the output of mineral substances at the pit's mouth.

(2) Where the operator or the person liable to pay the tax so elects, the product of an iron ore mine shall be deemed to have been sold when fed into a processing plant, and the gross receipts shall be determined on the basis of the lower Great Lakes ports price, as established in the trade press, less transportation costs from the mine, to the extent that such price is representative of actual sales of iron product.

(3) Subject to subsection 2, where the mineral substances are not sold at arm's length, the mine assessor may take into consideration the fair

market value in appraising the value of the mineral substances at the pit's mouth.

(4) Where the processing assets or any part thereof have been disposed of at arm's length by the operator, the proceeds from such disposal, not exceeding the original cost, shall be applied to reduce the cost to such person of any additions thereto made in the taxation year, and where such proceeds exceed the cost of such additions, the excess shall be applied to reduce the balance remaining to be depreciated of such assets acquired in previous years, and where no such balance remains to be depreciated, the excess shall be applied to reduce deductions otherwise allowable under the Act and this section and where any such disposal is made at any time after the close of processing operations, the tax for the previous taxation year shall be reassessed for the purpose of depreciation recovery where applicable, when the total proceeds from such assets are realized.

(5) For the purposes of subsections 3 and 4, the rules determining "at arm's length" in subsections 3 to 8 of section 1 of *The Corporations Tax Act, 1972* shall be deemed to apply *mutatis mutandis*.

(6) Where 80 per cent or more of the value of the input to a processing plant or plants located in Ontario is from ores mined in Ontario, or outside Canada, the operator or person liable to pay the tax who owns and operates the processing plant or plants may be entitled, in appraising the value of mineral substances at the pit's mouth, to the allowances and costs permitted by clauses *a* to *e* of subsection 1 and section 5.

(7) Where less than 80 per cent of the value of the input to a processing plant or plants located in Ontario is from ores mined in Ontario, or outside Canada, the operator or person liable to pay the tax who owns and operates the processing plant or plants may be entitled, in appraising the value of mineral substances at the pit's mouth, to allowances and costs permitted by clauses *a* to *e* of subsection 1 and section 5 in the proportion to the value that the input of ores mined in Ontario or outside Canada bears to the value of the input of ores to the processing plant or plants.

(8) Where the processing plant is located in Canada outside Ontario, the allowances and costs permitted under clauses *a* to *e* of subsection 1 and section 5 shall be reduced by the portion that the value of the input of custom processed ores mined in Ontario and ores mined outside Ontario, whether company owned or custom processed, bears to the value of the total input to the processing plant.

O. Reg. 126/75, s. 4.

5.—(1) The processing allowance under clause *f* of subsection 1 of section 4 shall be determined as follows:

- i. Where the operator or person liable to pay the tax owns and operates a concentrator

or concentrators situate in Canada but does not operate a smelter or refinery, the processing allowance shall be calculated at 8 per cent of the capital cost to the operator as constructed of the processing assets.

ii. Where the operator or person liable to pay the tax owns and operates a concentrator or concentrators and a smelter or smelters situate in Canada but does not operate a refinery in Canada, the processing allowance shall be calculated at 16 per cent of the capital cost to the operator as constructed of the processing assets.

iii. Where the operator or person liable to pay the tax owns and operates a concentrator or concentrators, a smelter or smelters and a refinery or refineries situate in Canada, the processing allowance shall be calculated at the rate of 20 per cent of the capital cost to the operator as constructed of the processing assets.

iv. Where the operator or person liable to pay the tax owns and operates a concentrator or concentrators, a smelter or smelters and a refinery or refineries situate in Northern Ontario, the processing allowance shall be calculated at the rate of 30 per cent of the capital cost to the operator as constructed of the processing assets, provided that the processing allowance under this paragraph shall not be in addition to the processing allowance under paragraph iii.

v. Where the operator or person liable to pay the tax owns and operates a concentrator or concentrators, a smelter or smelters, a refinery or refineries and a semi-fabricating plant or plants situate in Northern Ontario, provided that a significant proportion of the input to a semi-fabricating plant originates from a mine situate in Ontario owned by and operated by the person liable to pay the tax, the processing allowance shall be calculated at 35 per cent of the capital cost to the operator as constructed of the processing assets, provided that the processing allowance for a concentrator, smelter or refinery under this paragraph shall not be in addition to the processing allowance under paragraph iii.

(2) Where at any stage prior to the final stage of processing in Canada undertaken by the operator or person liable to pay the tax, a portion of the output of a processing plant located in Canada leaves a stage of processing without proceeding to the next stage of processing in Canada, the processing allowance at each stage shall be reduced by the proportion that the value of the output

that has left a stage of processing bears to the total value of the output of the processing plant at that stage.

(3) The processing allowance shall apply to processing assets as constructed only to the extent that they remain in use after construction, provided that where processing assets are not fully completed within eight years from the date of commencement of construction, the processing allowance shall be suspended for those processing assets.

(4) Where the processing allowance is claimed on assets as constructed but not in use the taxpayer shall support such claim by furnishing the mine assessor with a progress report showing work done and moneys expended on the asset during the taxation year.

(5) The processing allowance calculated under this section shall be not less than 15 per cent nor more than 65 per cent of the combined profit.

(6) Notwithstanding the provisions of subsection 5, the Lieutenant Governor in Council may increase the 65 per cent rate referred to in subsection 5 where a semi-fabricating plant is constructed in Northern Ontario. O. Reg. 126/75, s. 5.

6.—(1) Subject to subsection 3, the return required by section 6 of the Act shall be in the Form provided by the mine assessor.

(2) Subject to subsection 3, where a mine is entitled to disaggregation under subsection 2a of section 3 of the Act, the profit shall be apportioned amongst all mines operated by the same person or associated persons in proportion to the value of the recoverable mineral content of ore mined during the taxation year, but the mine assessor may use any other method that is appropriate.

(3) The return provided for under subsection 1 shall contain a separate part for computation of the profit of the mine in the case of an iron ore mine governed by subsection 2 of section 4.

(4) A Form provided by the mine assessor shall be completed in full and shall accompany the remittance of the estimated tax required by subsection 1 of section 2 of the Act. O. Reg. 126/75, s. 6.

7. The rate of interest payable under,

(a) subsection 1 of section 15 of the Act is 12 per cent per annum; and

(b) subsection 3 of section 15 of the Act,

(i) where the amount of tax paid is more than the amount shown on the notice of assessment issued under subsection 1 of section 7 of the Act, is 5 per cent per annum, and

- (ii) where the amount of tax paid is more than the amount finally determined when an appeal is taken under section 8 of the Act, is 8 per cent per annum. O. Reg. 126/75, s. 7.

8. This Regulation shall be deemed to have come into force on the 10th day of April, 1974. O. Reg. 126/75, s. 8.

9. Ontario Regulation 492/71 is revoked. O. Reg. 126/75, s. 9.

## CITY OF TORONTO

### SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario at its next session, for Special Legislation to provide:

1. That the City may enter into agreements with any person or governmental authority on such terms and conditions as may be agreed upon for the making of grants to the owner of any building on Yonge Street in the City to pay for the whole or any part of a program designed to restore or preserve any such building and further that the City may participate in such program in any manner prescribed by the Council.

2. That membership of the Toronto Electric Commissioners shall be increased from three to five, one of whom shall be ex officio the Mayor of the City, one of whom shall be appointed by Ontario Hydro and three of whom shall be appointed by the council of the City. Provision is made that members of the Toronto Electric Commissioners shall hold office for two years and until their successors are appointed but any member appointed before the legislation comes into effect shall continue to hold office until his term expires and his successor is appointed. Provision is also made for the filing of vacancies. Members, other than the Mayor and the Chairman shall receive annual salaries not exceeding \$8,000.

3. That any notice of appeal to the housing standards appeal committee, pursuant to *The City of Toronto Act, 1936*, as amended, or the non-residential standards appeal committee, pursuant to *The City of Toronto Act, 1971*, as amended, shall set forth the grounds of appeal and no other grounds may be argued except by leave.

4. That *The City of Toronto Act, 1936*, as amended, be further amended so that if upon inspection, the inspector is satisfied that any dwelling violates the standards prescribed in the City's housing by-law in such a manner that it is hazardous to the health and safety of any person, the inspector may make an order and thereafter the City, through the inspector, may take whatever measures the inspector deems necessary to correct the violation, without notice to any person, and for such purposes, the City and anyone acting on its behalf will have the right to enter the dwelling and adjoining property and neither the City nor anyone acting on its behalf shall be liable, except as in the legislation provided by reason of anything done by or on behalf of the City to correct the hazard or because of anything done without notice to such persons. The proposed amendment will provide for the service of the order immediately after the hazard has been corrected and will set out what such order must contain. It will be further provided that after

the order has been served on those persons required by the legislation to be served, the inspector must apply to the housing standards appeal committee and that committee can either confirm or refuse to confirm the order. There will be a provision in the proposed amendment whereby either the City or the owner may appeal a decision of that committee to a judge of the County Court, and the procedure for such appeal will be set out. The proposed legislation will also provide that if the Committee confirms such an order and no appeal is made to the judge, or if the judge confirms such an order, the City will have a lien for the amount expended by it or on its behalf, and the amount thereof may be collected in the same manner as real property taxes but if the committee refuses to confirm such an order and no appeal is made to the judge, or if the judge refuses to confirm such an order, the City shall bear the amount expended by it or on its behalf to correct the hazard.

5. That the City may pass by-laws licensing, regulating and governing any class or classes of rooming houses or any class or classes of owners or operators of rooming houses within the City or any defined area or areas thereof, and for designating as a rooming house, any class or classes of dwelling as defined in the proposed legislation, and further for defining in any such by-law "owner" or "operator". The proposed legislation would enable the City to pass by-laws providing for the issuing, suspension, revocation, renewal and transfer of such licences on such terms and conditions as council may from time to time prescribe and for prohibiting the use of a rooming house in violation of any by-law of the City or for any purpose other than that for which such licence was issued. It is further provided in the proposed legislation that the City may pass by-laws prohibiting the granting of a licence to an applicant who is not of good character and for providing the means of ascertaining whether the applicant is of good character. The proposed legislation further provides for the enactment of by-laws authorizing the Licensing Commissioner, as defined, to exercise all of the powers of the council with respect to licensing, suspension, revocation, renewal or transfer of a licence. The council or the Licensing Commissioner as the case may be would, if the proposed legislation is enacted, be able to impose conditions upon the applicant or holder of a licence, prior to the issuing, suspension, revocation, renewal or transfer of a licence. It is also provided that a licence fee may be fixed by by-law for any class or classes of rooming houses or owners or operators thereof in accordance with a scale for each class or the number of roomers permitted in a rooming house or for the number available for occupancy therein. A penalty of not more than \$1,000 is proposed for breach of any such by-law.

6. That where pursuant to a by-law passed under *The City of Toronto Act, 1936*, as amended, rent has been deposited with the City Treasurer, such by-law may empower the City to collect an administration fee not to exceed ten per cent thereof.

Dated at Toronto this 25th day of February, 1975.

## CITY OF TORONTO

### SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario at its next session, for Special Legislation to provide:

1. That the City may enter into agreements with any person or governmental authority on such terms and conditions as may be agreed upon for the making of grants to the owner of any building on Yonge Street in the City to pay for the whole or any part of a program designed to restore or preserve any such building and further that the City may participate in such program in any manner prescribed by the Council.

2. That membership of the Toronto Electric Commissioners shall be increased from three to five, one of whom shall be ex officio the Mayor of the City, one of whom shall be appointed by Ontario Hydro and three of whom shall be appointed by the council of the City. Provision is made that members of the Toronto Electric Commissioners shall hold office for two years and until their successors are appointed but any member appointed before the legislation comes into effect shall continue to hold office until his term expires and his successor is appointed. Provision is also made for the filing of vacancies. Members, other than the Mayor and the Chairman shall receive annual salaries not exceeding \$8,000.

3. That any notice of appeal to the housing standards appeal committee, pursuant to *The City of Toronto Act, 1936*, as amended, or the non-residential standards appeal committee, pursuant to *The City of Toronto Act, 1971*, as amended, shall set forth the grounds of appeal and no other grounds may be argued except by leave.

4. That *The City of Toronto Act, 1936*, as amended, be further amended so that if upon inspection, the inspector is satisfied that any dwelling violates the standards prescribed in the City's housing by-law in such a manner that it is hazardous to the health and safety of any person, the inspector may make an order and thereafter the City, through the inspector, may take whatever measures the inspector deems necessary to correct the violation, without notice to any person, and for such purposes, the City and anyone acting on its behalf will have the right to enter the dwelling and adjoining property and neither the City nor anyone acting on its behalf shall be liable, except as in the legislation provided by reason of anything done by or on behalf of the City to correct the hazard or because of anything done without notice to such persons. The proposed amendment will provide for the service of the order immediately after the hazard has been corrected and will set out what such order must contain. It will be further provided that after the order has been served on those persons required by the legislation to be served, the inspector must apply to the housing standards appeal committee and that committee can either confirm or refuse to confirm the order. There will be a provision in the proposed amendment whereby either the City or the owner may appeal a decision of that committee to a judge of the County Court, and the procedure for such appeal will be set out. The proposed legislation will also provide that if the Committee confirms such an order and no appeal is made to the judge, or if the judge confirms such an order, the City will have a lien for the amount expended by it or on its behalf, and the amount thereof may be collected in the same manner as real property taxes but if the committee refuses to confirm such an order and no appeal is made to the judge, or if the judge refuses to confirm such an order, the City shall bear the amount expended by it or on its behalf to correct the hazard.

5. That the City may pass by-laws licensing, regulating and governing any class or classes of rooming houses or any class or classes of owners or operators of rooming houses within the City or any defined area or areas thereof, and for designating as a rooming house, any class or classes of dwelling as defined in the proposed legislation, and further for defining in any such by-law "owner" or "operator". The proposed legislation would enable the City to pass by-laws providing for the issuing, suspension, revocation, renewal and transfer of such licences on such terms and conditions as council may from time to time prescribe and for prohibiting the use of a rooming house in violation of any by-law of the City or for any purpose other than that for which such licence was issued. It is further provided in the proposed legislation that the City may pass by-laws prohibiting the granting of a licence to an applicant who is not of good character and for providing the means of ascertaining whether the applicant is of good character. The proposed legislation further provides for the enactment of by-laws authorizing the Licensing Commissioner, as defined, to exercise all of the

powers of the council with respect to licensing, suspension, revocation, renewal or transfer of a licence. The council or the Licensing Commissioner as the case may be would, if the proposed legislation is enacted, be able to impose conditions upon the applicant or holder of a licence, prior to the issuing, suspension, revocation, renewal or transfer of a licence. It is also provided that a licence fee may be fixed by by-law for any class or classes of rooming houses or owners or operators thereof in accordance with a scale for each class or the number of roomers permitted in a rooming house or for the number available for occupancy therein. A penalty of not more than \$1,000 is proposed for breach of any such by-law.

6. That where pursuant to a by-law passed under *The City of Toronto Act, 1936*, as amended, rent has been deposited with the City Treasurer, such by-law may empower the City to collect an administration fee not to exceed ten per cent thereof.

NOTE: A transfer or sale to a segregated fund from another fund of the insurer within sixty days of the first advance under the mortgage or the date of acquisition in the case of real estate shall not be considered as a transfer or sale where there has been no material change in value since the date of the first advance or acquisition.

4. Item 6 of Form 1 of the said Regulation is amended by adding thereto the following clauses:

- (f) Where more than 15 per cent of the market value of the fund is invested in mortgages or is intended to be invested in mortgages, state the methods by which the market value of the mortgages is determined from time to time, on a basis consistent with the following:

- (iii) in computing the value of a wrap-around mortgage, the wrap-around mortgage and the original mortgage shall each be valued separately in accordance with subclause ii and the value of the original mortgage or mortgages shall be deducted from the value of the wrap-around mortgage;

- (g) Where more than 15 per cent of the market value of the fund is invested in or is intended to be invested in real estate for the production of income, state the methods by which the market value of the real estate is determined, from time to time, on a basis consistent with the following:

- (i) the initial market value shall be the cost of acquiring the real estate including professional fees and other acquisition costs,
- (ii) an appraisal of each parcel of real estate shall be made by an independent qualified appraiser at least once every three years,

- (iii) an appraisal of each parcel of real estate shall be made by a qualified appraiser at least once a year and may include an updating of previous appraisals,
- (iv) a monthly market value at dates for which an appraisal is not available shall be determined by the insurer on the basis of the price which the real estate would bring if offered for sale on the open market after allowing a reasonable time to find a willing purchaser buying with knowledge of the use to which the property may be put to reflect changes in real estate prices, construction costs and other economic factors affecting the value of the real estate,
- (v) all appraisals in any one year shall be arranged so that the valuations of the market value of individual parcels of real estate are made at regular intervals over the year,
- (vi) in the event of a material change in the condition of any real estate held in the fund that may affect the market value of the fund, the insurer shall immediately cause an independent appraisal of such real estate to be made and adjust the valuation of the real estate at the next monthly valuation after the appraisal is made.

## CITY OF TORONTO

### SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario at its next session, for Special Legislation to provide:

1. That the City may enter into agreements with any person or governmental authority on such terms and conditions as may be agreed upon for the making of grants to the owner of any building on Yonge Street in the City to pay for the whole or any part of a program designed to restore or preserve any such building and further that the City may participate in such program in any manner prescribed by the Council.

2. That membership of the Toronto Electric Commissioners shall be increased from three to five, one of whom shall be ex officio the Mayor of the City, one of whom shall be appointed by Ontario Hydro and three of whom shall be appointed by the council of the City. Provision is made that members of the Toronto Electric Commissioners shall hold office for two years and until their successors are appointed but any member appointed before the legislation comes into effect shall continue to hold office until his term expires and his successor is appointed. Provision is also made for the filing of vacancies. Members, other than the Mayor and the Chairman shall receive annual salaries not exceeding \$8,000.

3. That any notice of appeal to the housing standards appeal committee, pursuant to *The City of Toronto Act, 1936*, as amended, or the non-residential standards appeal committee, pursuant to *The City of Toronto Act, 1971*, as amended, shall set forth the grounds of appeal and no other grounds may be argued except by leave.

4. That *The City of Toronto Act, 1936*, as amended, be further amended so that if upon inspection, the inspector is satisfied that any dwelling violates the standards prescribed in the City's housing by-law in such a manner that it is hazardous to the health and safety of any person, the inspector may make an order and thereafter the City, through the inspector, may take whatever measures the inspector deems necessary to correct the violation, without notice to any person, and for such purposes, the City and anyone acting on its behalf will have the right to enter the dwelling and adjoining property and neither the City nor anyone acting on its behalf shall be liable, except as in the legislation provided by reason of anything done by or on behalf of the City to correct the hazard or because of anything done without notice to such persons. The proposed amendment will provide for the service of the order immediately after the hazard has been corrected and will set out what such order must contain. It will be further provided that after the order has been served on those persons required by the legislation to be served, the inspector must apply to the housing standards appeal committee and that committee can either confirm or refuse to confirm the order. There will be a provision in the proposed amendment whereby either the City or the owner may appeal a decision of that committee to a judge of the County Court, and the procedure for such appeal will be set out. The proposed legislation will also provide that if the Committee confirms such an order and no appeal is made to the judge, or if the judge confirms such an order, the City will have a lien for the amount expended by it or on its behalf, and the amount thereof may be collected in the same manner as real property taxes but if the committee refuses to confirm such an order and no appeal is made to the judge, or if the judge refuses to confirm such an order, the City shall bear the amount expended by it or on its behalf to correct the hazard.

5. That the City may pass by-laws licensing, regulating and governing any class or classes of rooming houses or any class or classes of owners or operators of rooming houses within the City or any defined area or areas thereof, and for designating as a rooming house, any class or classes of dwelling as defined in the proposed legislation, and further for defining in any such by-law "owner" or "operator". The proposed legislation would enable the City to pass by-laws providing for the issuing, suspension, revocation, renewal and transfer of such licences on such terms and conditions as council may from time to time prescribe and for prohibiting the use of a rooming house in violation of any by-law of the City or for any purpose other than that for which such licence was issued. It is further provided in the proposed legislation that the City may pass by-laws prohibiting the granting of a licence to an applicant who is not of good character and for providing the means of ascertaining whether the applicant is of good character. The proposed legislation further provides for the enactment of by-laws authorizing the Licensing Commissioner, as defined, to exercise all of the

powers of the council with respect to licensing, suspension, revocation, renewal or transfer of a licence. The council or the Licensing Commissioner as the case may be would, if the proposed legislation is enacted, be able to impose conditions upon the applicant or holder of a licence, prior to the issuing, suspension, revocation, renewal or transfer of a licence. It is also provided that a licence fee may be fixed by by-law for any class or classes of rooming houses or owners or operators thereof in accordance with a scale for each class or the number of roomers permitted in a rooming house or for the number available for occupancy therein. A penalty of not more than \$1,000 is proposed for breach of any such by-law.

6. That where pursuant to a by-law passed under *The City of Toronto Act, 1936*, as amended, rent has been deposited with the City Treasurer, such by-law may empower the City to collect an administration fee not to exceed ten per cent thereof.

Dated at Toronto this 25th day of February, 1975.

### SECOND SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of the Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, at its present session, for Special Legislation to provide:

1. Notwithstanding any general or special Act or agreements validated by statute or entered into under the authority of any statute, the City shall not be under any obligation to make any payment towards the maintenance and upkeep of the Art Gallery of Ontario. This section of the proposed legislation, if enacted, would be effective as of the first day of January, 1975.

2. That the City may by by-law provide at its own expense for the clearing away and removing of snow and ice from those portions of walkways between the public sidewalks on highways and the lowest step of the principal place of entrance of buildings owned or occupied by any class or classes of persons.

3. That the City may by by-law require the owners of buildings connected to the sewage works of the City by means of common drain connections to repair such connections where they are for any reason blocked, and to further provide that if owners of buildings affected by such a by-law fail to make such repairs within 10 days after being notified by the City to do so, the City may make the required repairs at the expense of the owners, and for that purpose the City or anyone acting on its behalf may enter upon such property and neither the City nor anyone acting on its behalf shall be liable by reason of anything done by or on behalf of the City. The proposed legislation provides for an ex parte application to a provincial court judge for an order authorizing entry on property to make the necessary repairs where entry has been denied. Provision is made for the passing of by-laws providing for the apportionment of costs among owners of the cost of the drain repairs made by the City. The proposed legislation will also provide for the making of loans by the City to an owner who has been notified to make drain repairs under this section, to pay for the whole or any part of the cost of making such repairs, and for the collection of the amount of such loan and interest thereon in like manner as municipal real property taxes. The proposed legislation will not apply where all of the buildings connected to the sewage works of the City by means of a common drain are in common ownership.

4. That the City may with the consent of the Minister of Housing adopt a policy statement establishing criteria for the sharing of housing accommodation by adults and children and thereafter the City may pass by-laws prohibiting any person from discriminating against another person in respect to any term or condition of the occupancy of housing accommodation because that person has children who would be sharing such housing accommodation with him, where occupancy thereof by adults and children is deemed appropriate thereto by the said policy statement. Any such by-law may impose a penalty of not more than \$1,000.00 for a breach thereof.

5. That the City may enact land use control by-laws in which higher residential densities are permitted on condition that the owner agree with the City to provide a proportion of the units for assisted housing purposes and empowering the City to enter into agreements for the provision of such housing and ensuring that such agreements are binding on subsequent purchasers.

6. That for the purposes of a housing development, as defined, the Corporation may acquire and hold land with or without buildings, prepare such land, rehabilitate, convert, repair or otherwise improve such buildings, construct new buildings, manage, maintain or operate any such buildings, and may sell, lease or otherwise dispose of for nominal consideration or otherwise any such land or buildings. The proposed legislation will also

provide that the City may enter into a partnership or any other arrangement with any person or governmental authority respecting any of the City's powers pertaining to a housing development, but no land acquired by the City by means of expropriation either before or after the legislation comes into force may be used for a housing development in respect of which the City has entered into any such partnership or other arrangement. In the proposed legislation, "housing development" will be defined so as to mean any project or undertaking designed to provide housing accommodation in the municipality and includes, without limiting the generality of the foregoing, any public space or recreational, institutional, commercial or industrial facilities or buildings, as in the opinion of the council of the Corporation may be reasonably necessary.

5. That the City may pass by-laws licensing, regulating and governing any class or classes of rooming houses or any class or classes of owners or operators of rooming houses within the City or any defined area or areas thereof, and for designating as a rooming house, any class or classes of dwelling as defined in the proposed legislation, and further for defining in any such by-law "owner" or "operator". The proposed legislation would enable the City to pass by-laws providing for the issuing, suspension, revocation, renewal and transfer of such licences on such terms and conditions as council may from time to time prescribe and for prohibiting the use of a rooming house in violation of any by-law of the City or for any purpose other than that for which such licence was issued. It is further provided in the proposed legislation that the City may pass by-laws prohibiting the granting of a licence to an applicant who is not of good character and for providing the means of ascertaining whether the applicant is of good character. The proposed legislation further provides for the enactment of by-laws authorizing the Licensing Commissioner, as defined, to exercise all of the powers of the council with respect to licensing, suspension, revocation, renewal or transfer of a licence. The council or the Licensing Commissioner as the case may be would, if the proposed legislation is enacted, be able to impose conditions upon the applicant or holder of a licence, prior to the issuing, suspension, revocation, renewal or transfer of a licence. It is also provided that a licence fee may be fixed by by-law for any class or classes of rooming houses or owners or operators thereof in accordance with a scale for each class or the number of roomers permitted in a rooming house or for the number available for occupancy therein. A penalty of not more than \$1,000 is proposed for breach of any such by-law.

6. That where pursuant to a by-law passed under *The City of Toronto Act, 1936*, as amended, rent has been deposited with the City Treasurer, such by-law may empower the City to collect an administration fee not to exceed ten per cent thereof.

### CITY OF TORONTO

#### THIRD SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, at its present session, for Special Legislation to provide:

1. That an alderman may resign from the City of Toronto Executive Committee without losing his seat in council.

2. That the provision respecting the term of office of members of the City of Toronto Executive Committee, expressed to be three years in *The City of Toronto Act, 1968-69 (No. 2)*, be amended so as to conform with the provisions of *The Municipality of Metropolitan Toronto Act* (two years) which prevails.

3. That on the first day of January, 1976, there shall be implemented and enforced, in the City of Toronto, a program designed to establish rents permitted to be charged for all residential buildings and residential units, as defined. The proposed legislation would provide that the City shall appoint one or more administrators and a Landlord-Tenant Tribunal. Such program would be based on the principle that rents prevailing as of June 1, 1974 should be permitted to be increased by the rental administrator only in accordance with the provisions of the legislation respecting the landlord's increased operating costs. There would be further provision enabling the rental administrator to decrease the rent charged as of June 1, 1974 where it is established that the rent charged as of that day is unjustified for the reasons set out in the legislation. The legislation will also contain a system of appeals from the rental administrator. There will also be a mandatory duty imposed on all landlords to file annually as set out in the legislation a statement of revenue and expenses for the residential building and residential unit in the

form prescribed by the council. The proposed legislation will also prohibit evictions of any tenant or the withholding of any service or facilities from any tenant or the interference with the quiet enjoyment of the rented premises by a tenant because that tenant has done anything such tenant is permitted to do under the legislation. The proposed legislation will provide for penalties for various breaches of the legislation. The City will be permitted to pass by-laws exempting any class or classes or residential unit or residential building from the legislation.

Provision is also made for the filling of vacancies. Members, other than the Mayor and the Chairman shall receive annual salaries not exceeding \$8,000.

3. That any notice of appeal to the housing standards appeal committee, pursuant to *The City of Toronto Act, 1936*, as amended, or the non-residential standards appeal committee, pursuant to *The City of Toronto Act, 1971*, as amended, shall set forth the grounds of appeal and no other grounds may be argued except by leave.

The proposed legislation will also provide that if the Committee confirms such an order and no appeal is made to the judge, or if the judge confirms such an order, the City will have a lien for the amount expended by it or on its behalf, and the amount thereof may be collected in the same manner as real property taxes but if the committee refuse to confirm such an order and no appeal is made to the judge, or if the judge refuses to confirm such an order, the City shall bear the amount expended by it or on its behalf to correct the hazard.

It is further provided in the proposed legislation that the City may pass by-laws prohibiting the granting of a licence to an applicant who is not of good character and for providing the means of ascertaining whether the applicant is of good character. The proposed legislation further provides for the enactment of by-laws authorizing the Licensing Commissioner, as defined, to exercise all of the powers of the council with respect to licensing suspension, revocation, renewal or transfer of licence. That the City may by by-law provide at its own expense for the clearing away and removing of snow and ice from those portions of walkways between the public sidewalks on highways and the lowest step of the principal place of entrance of buildings owned or occupied by any class or classes of persons.

3. That the City may by by-law require the owners of buildings connected to the sewage works of the City by means of common drain connections to repair such connections where they are for any reason blocked, and to further provide that if owners of buildings affected by such a by-law fail to make such repairs within 10 days after being notified by the City to do so, the City may make the required repairs at the expense of the owners, and for that purpose the City or anyone acting on its behalf may enter upon such property and neither the City nor anyone acting on its behalf shall be liable by reason of anything done by or on behalf

of the City. The proposed legislation provides for an ex parte application to a provincial court judge for an order authorizing entry on property to make the necessary repairs where entry has been denied. Provision is made for the passing of by-laws providing for the apportionment of costs among owners of the cost of the drain repairs made by the City. The proposed legislation will also provide for the making of loans by the City to an owner who has been notified to make drain repairs under this section, to pay for the whole or any part of the cost of making such repairs, and for the collection of the amount of such loan and interest thereon in like manner as municipal real property taxes. The proposed legislation will not apply where all of the buildings connected to the sewage works of the City by means of a common drain are in common ownership.

4. That the City may with the consent of the Minister of Housing adopt a policy statement establishing criteria for the sharing of housing accommodation by adults and children and thereafter the City may pass by-laws prohibiting any person from discriminating against another person in respect to any term or condition of the occupancy of housing accommodation because that person has children who would be sharing such housing accommodation with him, where occupancy thereof by adults and children is deemed appropriate thereto by the said policy statement. Any such by-law may impose a penalty of not more than \$1,000.00 for a breach thereof.

5. That the City may enact land use control by-laws in which higher residential densities are permitted on condition that the owner agree with the City to provide a proportion of the units for assisted housing purposes and empowering the City to enter into agreements for the provision of such housing and ensuring that such agreements are binding on subsequent purchasers.

6. That for the purposes of a housing development, as defined, the Corporation may acquire and hold land with or without buildings, prepare such land, rehabilitate, convert, repair or otherwise improve such buildings, construct new buildings, manage, maintain or operate any such buildings, and may sell, lease or otherwise dispose of for nominal consideration or otherwise any such land or buildings. The proposed legislation will also provide that the City may enter into a partnership or any other arrangement with any person or governmental authority respecting any of the City's powers pertaining to a housing development, but no land acquired by the City by means of expropriation either before or after the legislation comes into force may be used for a housing development in respect of which the City has entered into any such partnership or other arrangement. In the proposed legislation, "housing development" will be defined so as to mean any project or undertaking designed to provide housing accommodation in the municipality and includes, without limiting the generality of the foregoing, any public space or recreational, institutional, commercial or industrial

ilities or buildings, as in the opinion of the Council of the Corporation may be reasonably necessary.

### CITY OF TORONTO

#### THIRD SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, at its present session, for Special Legislation to provide:

1. That an alderman may resign from the City of Toronto Executive Committee without losing his seat in council.

2. That the provision respecting the term of office of members of the City of Toronto Executive Committee, expressed to be three years in *The City of Toronto Act, 1968-69 (No. 2)*, be amended so as to conform with the provisions of *The Municipality of Metropolitan Toronto Act* (two years) which prevails.

3. That on the first day of January, 1976, there shall be implemented and enforced, in the City of Toronto, a program designed to establish rents permitted to be charged for all residential buildings and residential units, as defined. The proposed legislation would provide that the City shall appoint one or more administrators and a Landlord-Tenant Tribunal. Such program would be based on the principle that rents prevailing as of June 1, 1974 should be permitted to be increased by the rental administrator only in accordance with the provisions of the legislation respecting the landlord's increased operating costs. There would be further provision enabling the rental administrator to decrease the rent charged as of June 1, 1974 where it is established that the rent charged as of that day is unjustified for the reasons set out in the legislation. The legislation will also contain a system of appeals from the rental administrator. There will also be a mandatory duty imposed on all landlords to file annually as set out in the legislation a statement of revenue and expenses for the residential building and residential unit in the

form prescribed by the council. The proposed legislation will also prohibit evictions of any tenant or the withholding of any service or facilities from any tenant or the interference with the quiet enjoyment of the rented premises by a tenant because that tenant has done anything such tenant is permitted to do under the legislation. The proposed legislation will provide for penalties for various breaches of the legislation. The City will be permitted to pass by-laws exempting any class or classes or residential unit or residential building from the legislation.
